## Annotations

### 1. Election of officers

Rule 15 of the rules of procedure of the functional commissions of the Economic and Social Council provides that, at the commencement of the first meeting of a regular session, the Commission shall elect, from among the representatives of its members, a Chairman and such other officers as may be required. In previous sessions, the Commission elected, in addition to a Chairman, four Vice-Chairmen, one of whom also served as Rapporteur.

In its resolution 1997/63, the Council decided on the following future arrangements for the election of the Bureau of the Commission in order to implement the provisions of paragraph 136 of the Programme for the Further Implementation of Agenda 21:

> The Commission, immediately following the closure of a regular session, will hold the first meeting of its subsequent regular session for the sole purpose of electing the new Chairman and other members of the Bureau in accordance with rule 15 of the rules of procedure of the functional commissions of the Council.

On 15 May 2009, the Commission elected Luis Alberto Ferraté Felice (Guatemala) as Chairperson and Hilario G. Davide, Jr. (Philippines), Mohamed A. A. Alahraf (Libyan Arab Jamahiriya), Tania Valeria Raguz (Croatia) and Ulf Jaeckel (Germany) as Vice-Chairpersons of its eighteenth session.

The membership of the Commission for its eighteenth session is contained in annex II.

**2. Adoption of the agenda and organization of work**

Rule 7 of the rules of procedure of the functional commissions of the Council provides that the Commission shall, at the beginning of each session, adopt the agenda for the session on the basis of the provisional agenda.

In its decision 2009/236, the Council took note of the report of the Commission on its seventeenth session and approved the provisional agenda for its eighteenth session.

**3. Thematic cluster for the implementation cycle 2010-2011 — review session:**

**(a) Transport**

**(b) Chemicals**

**(c) Waste management**

**(d) Mining**

**(e) A 10-year framework of programmes on sustainable consumption and production patterns.**

In its resolution 2003/61, the Council decided that the organization of work of the Commission should contribute to advancing the implementation of Agenda 21, the Programme for the Further Implementation of Agenda 21 and the Plan of Implementation of the World Summit on Sustainable Development (Johannesburg Plan of Implementation) at all levels. In the same resolution, the Council also decided that in order to fulfil its mandate the work of the Commission would be organized in a series of two-year action-oriented implementation cycles, which would include a review session and a policy session. The cycles would function as follows:

(a) The Commission's review sessions, to be held in April/May for a period of two to three weeks in the first year of the cycle, would undertake an evaluation of progress in implementing Agenda 21, the Programme for the Further Implementation of Agenda 21 and the Johannesburg Plan of Implementation, while

focusing on identifying constraints and obstacles in the process of implementation with regard to the selected thematic cluster of issues for the cycle;

(b) The review sessions would include a high-level segment, an exchange of regional experiences, dialogues with experts, including scientific experts, and sharing of best practices and lessons learned, with a view to facilitating implementation and capacity-building activities, such as learning centres and partnership fairs;

(c) The review sessions would undertake the above-mentioned evaluation on the basis of:

(i) The Secretary-General's state of implementation reports, which should reflect overall progress in the implementation of Agenda 21, the Programme for the Further Implementation of Agenda 21 and the Johannesburg Plan of Implementation, based on information provided in country reports and reports of United Nations organizations and bodies, as well as on information from regions and subregions, as appropriate, and major groups. In addition, the Secretary-General's state of implementation reports should contain a detailed review of progress of implementation in the selected thematic cluster of issues for the cycle at all levels, and should also reflect new challenges and opportunities related to the implementation of Agenda 21;

(ii) The contributions of United Nations agencies, programmes and funds, the Global Environment Facility and international financial and trade institutions;

(iii) The outcomes of regional and subregional meetings and activities, as appropriate;

(iv) The contributions of major groups, including scientific experts, as well as educators, taking into account paragraphs 139 (g) and 149 (c) and (d) of the Johannesburg Plan of Implementation, on their results-oriented activities concerning the implementation of Agenda 21, the Programme for the Further Implementation of Agenda 21 and the Johannesburg Plan of Implementation;

(d) The review session evaluation should enable an improved understanding of priority concerns in the implementation of the selected thematic cluster of issues and facilitate an effective policy discussion in the course of the policy year with a view to strengthening implementation in those areas;

(e) The outcome of the review session would be a report, including a chairperson's summary, identifying constraints and obstacles and possible approaches and best practices for the implementation of Agenda 21, the Programme for the Further Implementation of Agenda 21 and the Johannesburg Plan of Implementation.

In the same resolution, the Council also decided to adopt a multi-year programme of work of the Commission for the period after 2003. For the period 2010-2011, the multi-year programme of work will be as follows:

| *Thematic cluster* | *Cross-cutting issues* |
|---|---|
| Transport<br>Chemicals<br>Waste management<br>Mining<br>10-year framework of programmes on sustainable consumption and production patterns | Poverty eradication; changing unsustainable patterns of consumption and production; protecting and managing the natural resource base of economic and social development; sustainable development in a globalizing world; health and sustainable development; sustainable development of small island developing States; sustainable development for Africa; other regional initiatives; means of implementation; institutional framework for sustainable development; gender equality; and education |

The Council also decided that the implementation of the programme of work would be guided, inter alia, by the following considerations:

(a) The review and evaluation of the implementation of actions, commitments and targets would be dealt with in accordance with the relevant provisions of Agenda 21, the Programme for the Further Implementation of Agenda 21, the Johannesburg Plan of Implementation and the decisions of the Commission. The thematic clusters should be addressed in an integrated manner, taking into account the economic, social and environmental dimensions of sustainable development. Recognizing that all the issues identified in Agenda 21 and the Johannesburg Plan of Implementation are important, the implementation process should cover all those issues equally, and the selection of some issues during a given cycle does not therefore diminish the importance of the commitments undertaken with respect to the issues to be considered during future cycles;

(b) Means of implementation, as identified in Agenda 21 and chapter X of the Johannesburg Plan of Implementation, should be addressed in every cycle and for every relevant issue, action and commitment;

(c) Other cross-cutting issues, as referred to in the annex to Council resolution 2003/61, should also be addressed in every cycle;

(d) African and other regional initiatives, as well as initiatives on small island developing States and least developed countries, would be considered in every cycle with respect to all relevant issues, actions and targets;

(e) The Commission should focus on those issues where it could add value to intergovernmental deliberations on cross-sectoral and sectoral issues, in accordance with the provisions of General Assembly resolution 47/191, in particular its paragraphs 3 (h), 21 and 23, as well as paragraph 139 (f) of the Johannesburg Plan of Implementation.

## 5. Provisional agenda for the eighteenth session of the Commission

In accordance with rule 9 of the rules of procedure of the functional commissions of the Council, the Secretary-General shall submit a draft provisional agenda for the Commission's subsequent session, indicating in respect of each agenda item the documents to be submitted under that item and the legislative authority for their preparation, in order to enable the Commission to consider the documents from the point of view of their contribution to the work of the Commission and of their urgency and relevance in the light of the current session.

By its decision 2009/235, the Council decided that the eighteenth session of the Commission (the review session) should take place from 3 to 14 May 2010. In its decision 2009/236, the Council took note of the report of the Commission on its seventeenth session and approved the provisional agenda for its eighteenth session.

By its resolution 17/2, the Commission decided that the meeting of the preparatory committee for the two-day high-level review in September 2010 to assess progress made in addressing the vulnerabilities of small island developing States through the implementation of the Mauritius Strategy for Implementation, would be convened during the eighteenth session of the Commission on Sustainable Development.

### 6. Adoption of the report of the Commission on its eighteenth session

In accordance with rule 37 of the rules of procedure of the functional commissions of the Council, the Commission reports to the Council on the work of each session.
